

**TOWN OF DEERING**  
762 Deering Center Road  
Deering, NH 03244

**Fire Department Study Committee  
(FDSC)  
Meeting July 14th, 2022  
Deering Town Hall  
MINUTES  
5:30pm**

**MEETING CALL TO ORDER**

**New Business:**

- Discuss Process for Public hearing and Proposal to the Selectboard
  - The committee discussed the deadline for presenting their findings to the BOS. They determined that this would need a few more weeks of review before they would be able to complete a presentation with the board.
  - The committee discussed the draft Fire Department Cost Analysis. From their discussion they determined that there were a few more points that needed to be addressed before they would be able to present this. The changes are:
    1. The Cost Analysis needs to depict the tax rate impact
    2. The Excel needs to be flexible enough to be shrunk down to a general size so that everyone will be able to understand the data
    3. The Full-Time EMS and Part-Time EMS tab will both need to address the failing Ambulance and its potential replacement costs.
    4. Fire and EMS Coverage needs to be amended to show the current coverage rates so that individuals can understand what level of service they will be provided with each section.
- Other Business
  - The committee agreed that having the contracted EMS provider attend the next meeting would be essential to understanding the process of entering an agreement with a private company. They agreed that they would meet Wednesday at 5:30PM to give sufficient time to discuss the matter.
- Prepare for Next Scheduled Meeting

**Adjourn:**

*\*This agenda is subject to change right up to the scheduled meeting.*
