

Deering Cemetery Trustee Meeting 6/20/19

6:32pm

Present: Cynthia Krill, Tom Cummings, Terry Verville

Crow Fence got the bid for replacing the East Deering Fences, we should be on the list for this year to replace it.

Appleton and Butler are in desperate need of cutting branches, brush removal, and weed whacking the growth around the back walls. It need to be hauled away, a dozen or more headstones in both lots are covered with bushes, leaves and debree and you can't even see some of them and need to be addressed and hauled away. The next mowing bids when contract is up should reflect the removal on leaves and branches not just blown to the side.

Terry will be getting bids on having Appleton and Butler cleared out and hauled away.

Rules and regulation signs need to be replaced.

How can perpetual Care fund be used: cleaning headstones, straighten headstones, repair? Cynthia will be contacting the AG office, Terry Knowles in Concord.

Cynthia will be contacting Peterborough Monument to do a walk through the cemeteries and get pricing on cleaning and straightening headstones.

Tom will be flagging headstone that are desperately in need of s straightening before the are broken.

Add the perpetual care options to the cemetery plot contracts.

We need to find the list of perpetual care purchases. I will check at the town files too.

Meeting adjourned 7:21pm
