Deering, NH 03244

**Fire Department Study Committee
(FDSC)
Meeting July 20th, 2022
Deering Town Hall
MINUTES
5:30pm**

MEETING CALL TO ORDER

New Business:

- Discuss Private EMS Services with Great Brook EMS: Presented by Christopher Rousseau
 - Chris Rousseau of Great Brook EMS met with the Fire Department Study Committee and presented the Proposal for the Ambulance services. He explained that the annual fee of \$225,000 would cover the costs of 24-hour dedicated service to the community with one or two apparatuses active. He also explained that to operate they would need to have a location to house the apparatuses and suggested utilizing Donovan station for this. The committee questioned C. Rousseau about the guaranteed length of the proposal and explained to him the timeline that this would take to decide. The committee agreed that they would reach out to Chris after presenting to the board of selectmen.
- Review edits to the Fire Department Cost Analysis Breakdown
 - The committee reviewed the Cost Analysis Breakdown and discussed some of the administrative changes that were made. The committee recommended a number of changes to make the document easier to read and suggested creating additional materials that might be easier to present within a singular page. The committee determined that they would do an additional edit to this document at their next meeting and then prepare their presentation to the Board of Selectmen.
