- Officer Philibert has left for final training and will be "boots on the ground" in Afghanistan on Dec. 5th. Will be gone for at least 1 full year.

- Capt. Cavanaugh attended a RADAR speed measurement certification class, and now has to complete "in-service" trials to complete this certification.

GRANTS:

- Primex3 grant: This grant was denied, but the company is starting a "Workers Compensation Safety Improvement Program" (WCSIP) which might provide some moneys in 2010 for funding "specific loss areas." I should find out more about this program in January'ish.
- Highway Safety Agency Grants: I will be starting to re-apply for these annual overtime grants. (DWI and Speed Enforcement). We may have more trouble getting these this year because of the budgetary funding cuts to salary lines in 2009, as all such federal based grants are supposed to be non-supplanting.
