

If you have a fire permit and rent your property on a seasonal, or weekly basis or as an Air-BnB the fire permit cannot be extended to your tenant.

The tenant must have written permission from you on the state form

<https://www.nh.gov/nhdfl/documents/nh-burning-permit-authorization-non-owner.pdf>.

The tenant must also obtain a fire permit in their name. It is an obligation of the property owner to notify all renters of this requirement.

You the landlord are liable for an unpermitted fire on their property.
